**Agenda****Background:**

The CALFED Bay-Delta Program is a cooperative effort among State and federal agencies and the public to ensure a healthy ecosystem, reliable water supplies, good quality water, and stable levees in California's Bay-Delta system. The Water Use Efficiency Program is one of several Program elements CALFED is implementing through an integrated approach. The August 2000 CALFED Record of Decision called for the creation of a Water Use Efficiency Public Advisory Committee (WUE-PAC) to advise State and federal agencies on structure and implementation of assistance programs, and to coordinate federal, State, regional and local efforts for maximum effectiveness.
